## PPO Dental Plan

We offer one dental plan through Cigna for all benefit eligible Palantirians. With the Cigna PPO plan, you may visit any dentist of your choice. Keep in mind, you'll receive the highest coverage when you use an in-network provider. If you visit an out-of-network provider, you will not benefit from discounted rates and will pay more out-of-pocket for services. Many dentists outside the provider network will require you to pay for services upfront and submit forms for reimbursement from your plan.

Benefit eligible Palantirians can elect in dental coverage via Workday. To search for in-network dentists, visit [Cigna](#) and use their online provider finder. Electing in dental coverage must be done within the 30 day new hire period or qualifying event enrollment period.
